Information for the good of the Valley:

As we approach Spring and are going through Club meetings, let me remind you that we are encouraging a fresh approach to the usual events. We need you to work with your Club Officers and Ambassador to create innovative Club meetings for the Valley to support.

The coming Reunion will offer something you may have never seen. It will include the DeMolay degree. This is the foundational degree of the youth organization by the same name we had supported for so many years. This alone would be worth coming out to see.

Let me also encourage you to share the light. As you have the opportunity, get the email address from your fellow Masons. They need not necessarily be Scottish Rite Masons. Pass their address on to Ron Zemites (email below). They will be sent this e-Letter. We need to enhance our communication. This is one way to accomplish that. Isn't Masonry a business? We tend not to think of it as such but, just as any business, if it is left to itself for sustenance it will fail. The business needs to be tended to. It must change with the needs of the clients. It will not change itself. We need to make the change.

As usual, please contact the Scottish Rite Office for any needs or information. The Scottish Rite Office phone number is: (513) 421-3579.
